

# Design a Softie

**Design a Body** :: using a whole sheet of paper, choose a body style and draw the pattern. Make sure to cut 2 of each for a front & a back.

**Legs & Arms** :: draw out your arms and legs. Make sure to cut two of each.

**Design a Face** :: make sure your eyes, mouth and nose will fit on your softie's face. For each facial feature you can choose to sew these on by hand, cut them out of felt/fabric or a combination of both.

Eyes

Nose

Mouth

**Ears** :: draw out your ears and make sure they will fit on your softie's head. Make sure to cut two of each.

**Wings** :: draw out your wings and make sure they will fit on your softie's body. Make sure to cut two of each.

# Build a Softie

## Materials List

cotton fabric scraps  
felt scraps  
cotton pearl embroidery floss  
sewing machine & thread  
pins  
stuffing  
chenille #22 needle

## Directions

To cut: When you cut, make sure to cut a little larger than your pattern to leave room for the seam allowance.

Cut out a front and a back body for your softie.

Cut out 4 arms and 4 legs (a front/back for each)

Cut out 4 ears and 4 wings

Use some ric rac or ribbon to make the division between the head and the body of your softie. Sew this on with a zig zag stitch using the sewing machine.

For the face:

Option one: Use embroidery thread to sew on the eyes, mouth and nose with a backstitch.

Option two: Cut the eyes, mouth and nose out of felt and use a whipstitch to sew these onto the face.

For each arm, leg, ear and wing - match right sides together and sew with the machine leaving the top side open (the straight side). After sewing, turn your arm, leg or wing right side out.

Pin your arms, legs, ears and wings onto the front of your softie with the arms, legs, ears and wings facing the inside (opposite the way they would naturally go).

Lay the back of your softie on top (making a sandwich with the arms & legs in the middle). Starting on the side, carefully use the sewing machine to sew all around the body of your softie and leave a 2 inch hole

Turn your softie right side out and fill with stuffing.

Sew up the hole with a whipstitch and give your new little friend a big hug!
